Ionisation Smoke Alarms

Toast Proof  
Optical Smoke Alarms

**2 Smoke Alarms Fitted from £69**  
**Carbon Monoxide Alarm from £29**

The Fire Brigade are called to over 600,000 fires a year which resulted in 800 deaths, so having a smoke alarm that is professionally positioned will help save you, your family, belongings and home from harm or worse.

Dangerous Carbon Monoxide is odourless and colourless so detecting it with an alarm is the only safe way to prevent poisoning which can lead to death.
